Q&A

Q. Why choose Amtico?

A. Amtico is a British manufacturer and an expert in both product and service. The company designs, manufactures and supplies an array of Luxury Vinyl Tile options, known in the industry as LVT. This is a type of flooring that's incredibly durable and robust. This strength comes from several heat-compressed layers, which form one tile with varied features. These tiles have flexible designs and are easy to clean, maintain, repair and replace.

LVT is perfect for busy areas and many hotels and restaurants choose Amtico because of the hard-wearing benefits, coupled with beautiful designs. Engineered to withstand busy family-life environments, Amtico maintains a 'just laid' appearance for years.

From well-worn-looking rustic timbers to shimmering statement floors, the distinctive surfaces and beautiful textures of our products set Amtico apart.

The quality of our design and cutting capabilities makes Amtico original. Our company creates products that offer a real alternative to conventional flooring, are warm underfoot and can be used with underfloor heating. Create something exciting and new with a unique design.

Insider Guide

Lorna Williams, Head of Product Design and Creative Branding, explains why she loves Amtico.

What makes Amtico special? For me, it's the potential to create a beautiful floor that is truly unique to you. With Amtico Signature, whatever space you're working with, you can be creative by combining Wood, Stone or Abstract palettes with our laying patterns, borders and motifs. You can see some amazing options put together by our designers at our specialist retailers.

Uniquely **amtico**

Wood, Stone or Abstract? Amtico really does offer the best solutions. Our Wood designs include timeless classics, sun-kissed woods and textured timbers. With contemporary Stone the options are opulent, textured and natural. Or why not consider one of our Abstract collections with captivating colours, subtle shimmers and tonal stripes.

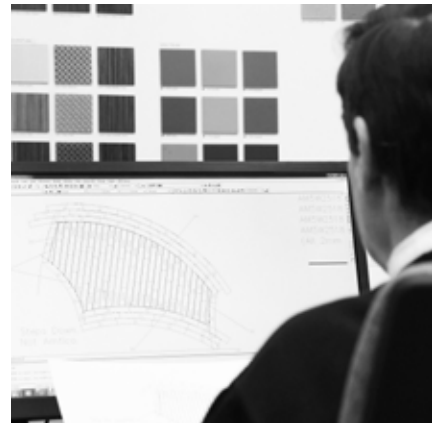

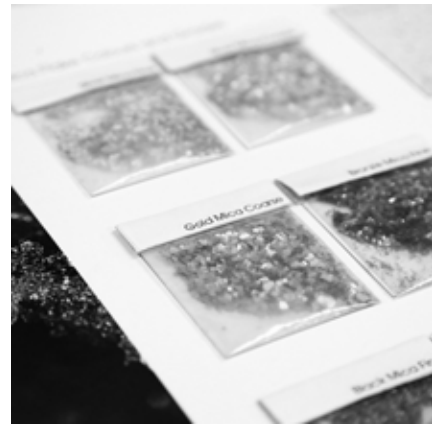

Far Eastern or Artisan? Far Eastern is on-trend and brings the colour, pattern and exotic flavour of this vibrant part of the world to life. However, I also love the authenticity of Artisan; it is the very definition of quality and skilled craftsmanship.

The background of the entire page is a collage of artistic elements. At the top left, a paintbrush with a silver ferrule and a wooden handle is shown with a bright blue paint tip. To its right are several blue paint splashes of varying sizes. The central part of the page is a white rectangular box containing the main text. Below this box, there are more artistic elements: a palette with various shades of blue and white paint, a paintbrush, and a piece of paper with a blue and white hexagonal pattern. The bottom right corner features a large, dark blue paint splash.

Amtico Signature

Amtico Signature is our premium collection of design-led flooring which allows you to create a unique solution for your space when you choose from a broad choice of designs and laying patterns. With its extra hard-wearing surface and Lifetime Warranty, you'll enjoy total peace of mind.

Create *your* Signature style

IN THREE EASY STEPS...

Create a design that works for your unique space. Choose from coordinating styles, patterns and finishes to create a look you'll love.

Step 1

FIND YOUR SIGNATURE STYLE

Every space can be different with Amtico Signature. Whether your taste is simple, relaxed and classic, or bold, glamorous and contemporary, you'll find something to suit your style among the wide range of Wood, Stone and Abstract design options.

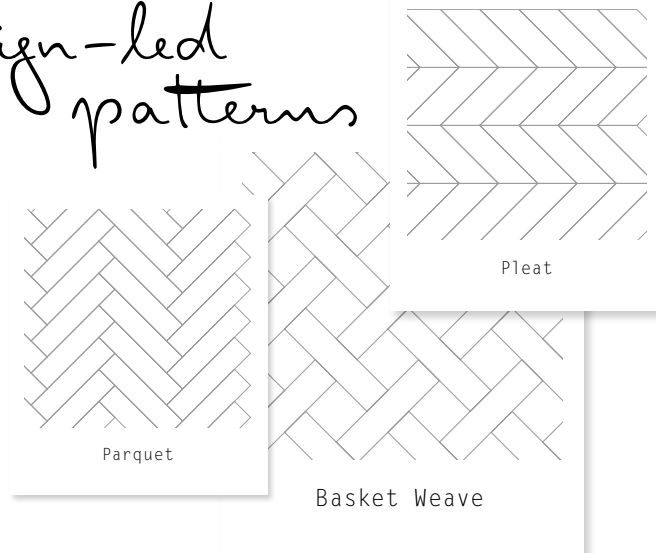

Step 2

LOVE YOUR LAYING PATTERN

Add charm and character to your interior scheme with your choice of our laying patterns. Go for a classic Parquet or a modern Random Plank to bring your own signature style to life. Or choose from our Designers' Choice collection, a range of pre-designed floors, where the perfect product combinations have been carefully selected by our designers for you.

See page 59 for further details.

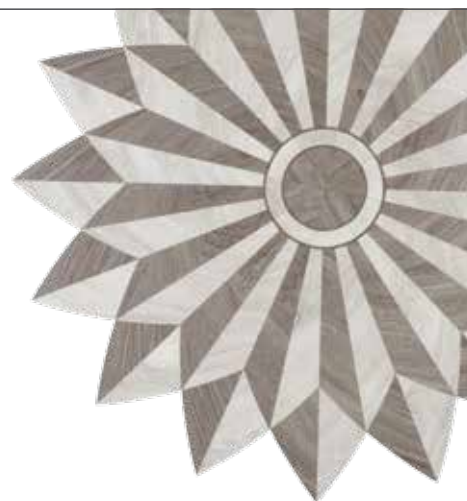

design-led patterns

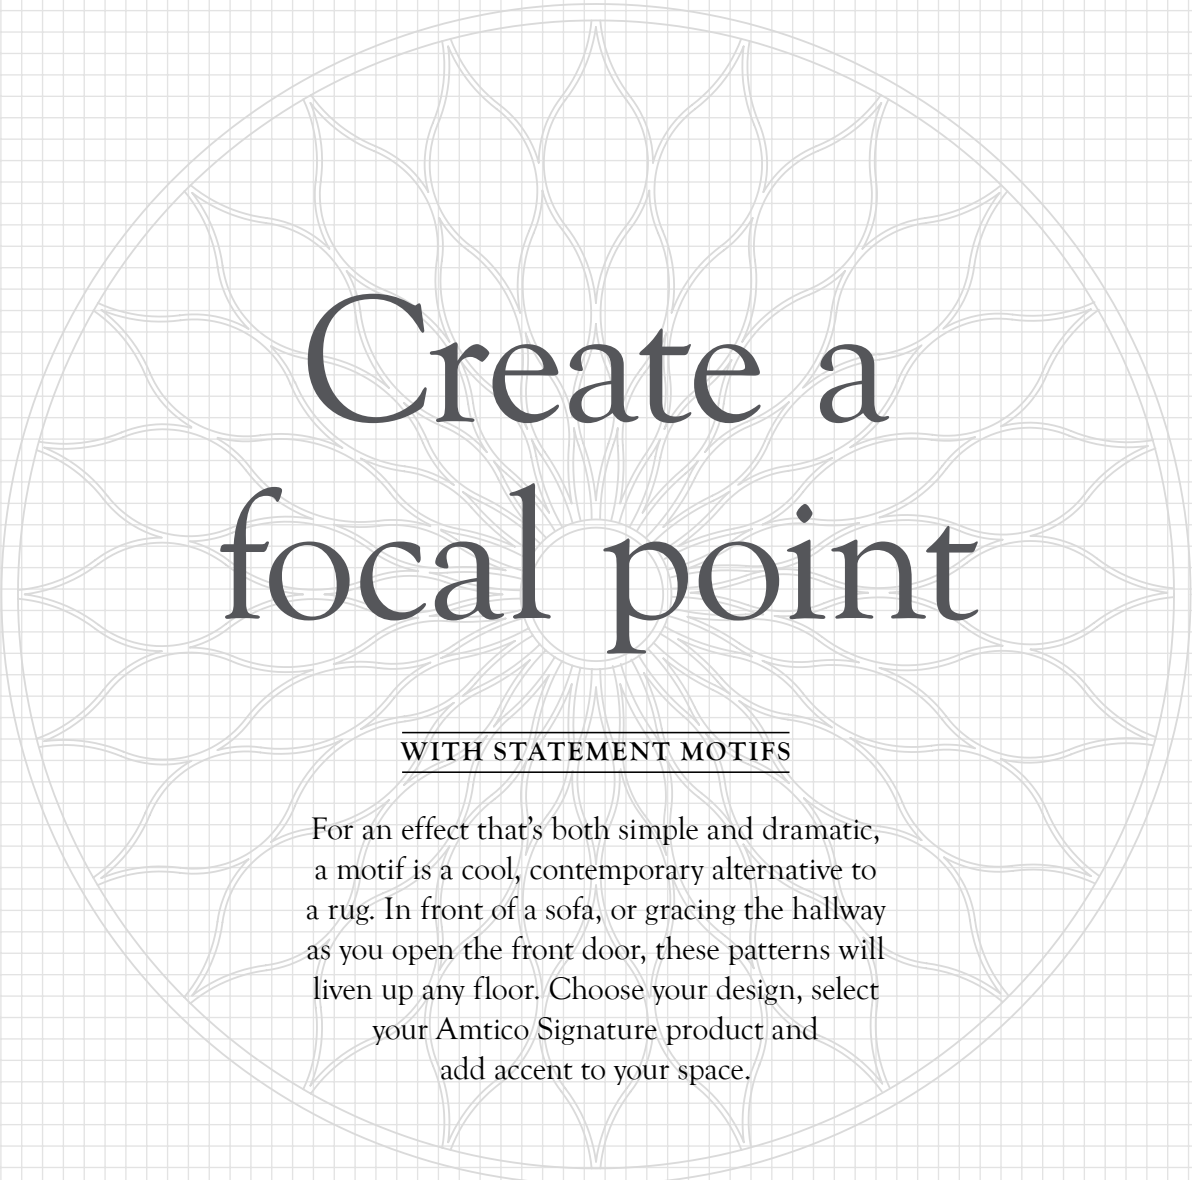

Step 3

ADD A DECORATIVE BORDER OR MOTIF

Add definition and a focal point with your choice of decorative borders and motifs. A patterned motif makes a contemporary alternative to a rug or an eye-catching talking point in a hallway. These are the finishing touches that will bring your space to life.

Create a focal point

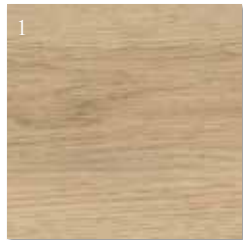

WITH STATEMENT MOTIFS

For an effect that's both simple and dramatic, a motif is a cool, contemporary alternative to a rug. In front of a sofa, or gracing the hallway as you open the front door, these patterns will liven up any floor. Choose your design, select your Amtico Signature product and add accent to your space.

Decorative Borders

ENHANCE AND DEFINE YOUR LOOK

Create a striking effect in any room by framing the floor with a geometric edge.

If you think of a room as a piece of artwork, a border on your floor is the frame. When pulling a scheme together, the simplicity of a slim line or a bold Art Deco pattern adds interest and smartens up any interior. Perfect for defining areas in a free-flowing space or sharpening up the aesthetics of a lounge, choose your border, select your Amtico Signature product and bring your floor to life. There is still a place in every home for traditional borders, which are the perfect way to define your look and create simple definition and a seamless flow.

THE TREND...

Cool Hues

Pure sophistication and simple, clean lines bring together this collection of Scandinavian whites and soft greys. Ideal for urban and modern settings, they look cool, calm and contemporary.

Pair with clean, white furniture in large open spaces for a look that is über-cool. For added intrigue and detail, choose a style with a shimmering pearlescent finish.

Smoky tones of grey and putty such as Pearl Wash Wood bring a contemporary, treated finish to your floor.

Space No.4

The Illusion

Make smaller spaces appear wider by using light-reflecting flooring.

Expose the space you have and open up small rooms with shimmering shades of flooring, such as Amtico Spacia product Bronze. Combine with a bright cream or white stripping to create the illusion of increased space and set this against muted and neutral tones on the walls. The careful use of accessories will draw in the eye to the enlarged space. A bright colour amongst these pale tones adds interest, but too much will start to shrink the area.

Making the most of your floor

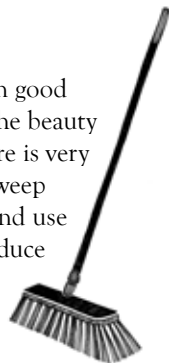

Whilst Amtico floors are built to last,
all things look better if given a little care...

PERFECTLY PRISTINE

To keep your floor as immaculate as the day it was fitted, it's wise to dress your furniture with protective felt feet or glides. Included in your Amtico Starter Kit, they help reduce the risk of scratching your floor. Try increasing the contact area of the furniture to spread the weight, which will also help to reduce the risk of dents.

LOOKING GOOD

The key to keeping any floor in good shape is to keep it clean, and the beauty of Amtico products is that there is very little maintenance required. Sweep frequently, mop occasionally and use an Amtico Entrance Mat to reduce the chance of dirt and grime being walked onto your floor.

SPARKLE AND SHINE...

For regular cleans, Amtico Floorcare Maintainer and a standard string mop are recommended: this will remove any marks that do not disappear with a light sweep. For full care advice, visit amtico.com or your nearest Amtico retailer.

CLEAN AS A WHISTLE...

For a spring clean ritual, stock up on our Amtico Floorcare Stripper and Floorcare Dressing products. The Floorcare Stripper is designed to remove ingrained dirt whilst the Floorcare Dressing protects the floor. Simply apply a solution of prepared Floorcare Stripper, mop the floor, leave for 10 minutes and thoroughly rinse clean twice, allow to dry and then apply our Floorcare Dressing for a fresh new look.

Every effort is made to achieve accurate reproduction of products in this brochure; however, printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They only give a general indication of the design. Tone and shading can vary slightly from batch to

batch, and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification.

The Lifetime Warranty means that in the event of 'wear-out' from normal foot traffic, the floor will be replaced free of charge. Wear-out means the removal of the pattern and colour from the Amtico floor caused by the removal of the protective wear layer. Damage caused by stains, spillages, burns, scratches, indentations, floods and any other accidents or abuse, as well as any reduction in the surface gloss due to normal wear and tear, is excluded from the guarantee.
